

## BETTER BATHROOMS & KITCHENS

# ALWAYS IN STYLE

QUALITY THAT IS TIMELESS

Showcasing warmth and an authentic provincial aesthetic, this kitchen is an example of the exceptional results Better Bathrooms & Kitchens achieves by balancing the requirements for both living and entertaining.

The focal point of the kitchen is the stunning chimney mantel, which discreetly houses the Schweigen rangehood and frames the freestanding Falcon oven. The 'Mocha' tiled splashback features a diagonal inset and accentuates the chimney and complements the home's traditional character.

The cabinetry doors and panels are made from solid ash timber and feature an antique ivory painted finish, which beautifully offsets the natural timber finishes prevalent throughout the kitchen. Each cupboard is also equipped with state-of-the-art Blum Tandembox internal hardware.

Soft green walls, intricate cornicing and woven bamboo 14mm floating floor boards further enhance the kitchen's classic look, while the island bench has been designed for food preparation and presentation, with the added benefit of accompanying storage.
