

BETTER BATHROOMS AND KITCHENS

CALM AND CONTEMPORARY

A RELAXING RETREAT

Your bathroom is a private and personal space, and you should feel completely at ease when you're in there. The featured bathroom provides the owners with a relaxing escape in their own home; however, the real triumph is the way this stylish room cleverly hides the home's unsightly laundry appliances.

Winner of numerous awards, including the 2010 HIA Victorian Bathroom of the Year, Better Bathrooms and Kitchens is the proud designer of this peaceful bathroom retreat.

The owners wanted to combine their bathroom with their laundry facilities keeping the space practical, while maintaining a relaxing and open atmosphere. The expert selection of products and materials used in the project allowed the designers to create this functional and serene space.

The floor-entry shower features a fixed showerhead, a wall-to-ceiling glass panel and stainless steel fittings. The blend of minimalist fittings and glass in the shower ensures the room appears uncluttered, contributing to its openness.

The simple lines of the wall-hung vanity and mirror ensure the bathroom is clean and easy to maintain. The black Laminex on the vanity contrasts against the white colour of the Linha Washplane basin, drawing attention to the tiled feature wall.

Stretching across the floor and climbing up the wall, the natural colour of the Overland tiles builds on the room's restful ambience, while the large size reduces unsightly grout lines and minimises cleaning.

The bathroom's most distinguishing feature is its seamless inclusion of the laundry facilities, without compromising on design. This was achieved through the inclusion of the storage cabinet, which conceals the laundry appliances and harmonises with the colour and style of the vanity.

Better Bathrooms and Kitchens services metropolitan Melbourne, completing approximately 50 renovations a year. Founder Garrett Hebden has 23 years of experience completing quality renovations and internal works.

Better Bathrooms and Kitchens specialises in all design styles and also designs laundries, cabinetry and wardrobes. The company is also skilled in removing and adding walls, doors, windows, ceilings and floors. Better Bathrooms and Kitchens is a versatile company that ensures perfect design, every time.
